

NOVA65/90 WASTE-RECYCLING STATIONS

The modular design of the NOVA65 and NOVA90 recycling stations allows you to setup your own recycling station up to 3 streams upon your present or future needs. This series has respectively a capacity of 65 or 90 liters per stream. The 8" x 10" labels given a clear identification of the service offered. The standard labels are "WASTE", "RECYCLABLE", "CANS-BOTTLES" and "COMPOSTABLE". Design for interior use.

Ergonomic design: an hinged cover is given direct access to the bag. This concept offers the maximum capacity for a limited outside dimensions, ideal for restrained areas. The optional backboard is given even better visibility. Bag size, NOVA65: 26" x 36"; NOVA90: 28" x 38". The NOVA65 and NOVA90 waste-recycling stations are mounted on 4 levellers or on optional swivel wheels.
