

PHOENIX RECYCLING RECEPTACLES

The **PHOENIX** recycling and waste series is available from a single stream to a 4-stream receptacles.

Their domed top combined with the front and back openings give a good weather protection for outside use. The PHOENIX recycling receptacles are suitable for outside as well as inside use. The lockable front door or doors depending of the model, give an easy access to the internal liners. The PHOENIX recycling series can be secured to the ground, using the four 3/8 in holes inside the cabinet.

The PHOENIX series come with a choice of decals to be installed below the access holes as "WASTE", "RECYCLABLE", "BOTTLES-CANS" or "PAPERS". You can install your community messages on each side, front or rear of the unit and above the access openings.
